A Note About Our Name

Our domain, <http://www.JediWealth.com>, developed from a simple system we developed, which showed how to refer people to products and services. It was a fast, effective system, and we chose the word “Jedi” to demonstrate the transformation it brings.

Since then, we have developed into a complete fast track money making training course, including website traffic, affiliate promotion techniques, product development, blog development, and everything else that is needed to make a substantial ongoing online income. And as a proof of the power of brand development, we have kept the name.

I hope you come to trust *The Jedi Internet Wealth System* as your one stop for everything you need to know to make an online income that transforms lives.

Making Money Online Is A Proven System

Before I show you the exact system you need to follow to make the money that the gurus make, I want you to tell you about the power of systems and consistency.

A system simply means you have a step-by-step process to follow. If you have a proven money making system, and follow its steps, you will make money.

Consistency means doing what needs to be done, when it needs to be done. There is no point in having a proven money making system if you don't follow through on every step. So consistency is mandatory. Focus and dedicate yourself to this system, and you will make more money than 99.9% of everyone else on line. It's very cool to be in the top 0.1% of all on line earners.

A Note About Selling Without Your Own Product

Almost everyone starts off making money online by advertising affiliate links. This step-by-step guide you are now reading is not focused on selling other people's stuff, since you can make a lot more money in a lot less time by creating something yourself (*The Jedi Internet Wealth System* shows you how to do it quick). If you want the day-to-day plan for advertising other people's products, it is included in the *The Jedi Internet Wealth System*.

The Step By Step System

This system has been tested and proven by thousands of people, who are making billions online. BILLIONS. So please pay attention, and do not skip any steps.

How Long Does It Take?

What this system discusses is long-term income, not a one-shot wonder that pays a bit and then fizzles to nothing.

The entire system takes about a month to get going, and then requires a few hours per week to build and grow the business.

Does 30 days to make \$10,000 (or month) per month or more sound ok to you? If it does, you will really appreciate *The Jedi Internet Wealth System*.

Let's get started then!

Day 1

Find a cash-rich hungry market with an unfulfilled need. Ideally, it is not a short term need, but rather an "evergreen" need, something that will always be wanted. Do the research to know your competitors, your customers, and your potential income. You can start with <http://www.google.com/trends/hottrends> to see the most popular topics today.

Decide if you will develop your product or service on your own, or re-work someone else's stuff. For online products, you can use high quality "private label rights" (PLR) products, and re-work it into a unique product.

The *Jedi Internet Wealth System* will show you dozens of ways to find hungry markets eager to spend money.

Day 2

Do product research, and get your payment processor setup. If you are using PLR, learn what PLR is and how you can use it to launch a new product or service. For payment processors, this is the company that will handle the cash for you – transfer funds to your account. Paypal and <http://www.2checkout.com> are the two most popular. Register your keyword-specific website.

Day 3

Start developing the product, or find the PLR product you will start with. Use Open Office Writer to create PDFs, or Jing to create videos.

Day 4

Search for partners who can recommend your product service. Get their name, website, email, address and phone/fax. If working with PLR, start to get it reworked using an outsource service like rentacoder or elance.

Day 5

Write the sales page or contract it out to a professional.

Day 6

Determine the price you will sell at, and discounts you will offer during prelaunch. Set up a simple discount order page for any email subscribers you currently have.

Day 7

Fix sales letter, and fax/phone/email your potential partners about your new launch. If using PLR, select your contractor and start work. Provide email promotion for your partners so they can start promoting you.

Day 8

Select graphics designer, mini-site developer. Make sure your graphics person knows about conversion and matching graphics with the product to maximize sales. Provide detailed information for your rebranding contractor (if PLR).

Day 9

Advertise your sales letter via pay per click, blog posting and 3rd party blog comments, and forum signatures. Use testing and tracking to measure the results, and adjust your salesletter for optimal income.

Day 10

Update your partners on initial sales results. Create a top-ten list, if you have a lot of people helping you sell. Check on your PLR contractor's progress.

Day 11

Contact partners, tell them to actively promote now – give them promotional materials (banners, email ads, reviews) to work with. Contractors should be nearly complete now (e.g. PLR work complete or nearly complete). Add user's manual, readme.txt, and any supporting material your product needs.

Day 12

Partners are actively promoting. Check stats and remind inactive partners to start, phone any that might need a personal touch. Continue personal promotion of your product (blogs, forums, web 2.0, etc).

Day 13

Review testing, and adjust sales page and any upsells, cross-sells to further improve response and profits. . Continue personal promotion of your product (blogs, forums, web 2.0, etc). Completion of product and website (sales letter and graphics, web template).

Day 14

Continue personal promotion of your product (blogs, forums, web 2.0, etc). Add blog to your site.

Discover the way to set up your blog with 3 mouse clicks, and configure it to get hundreds of visitors each day...you get with your access to the [Jedi Internet Wealth System](#)

Day 21

Write on your blog. Social bookmark your posts on sites like <http://www.stumbleupon.com> and <http://www.blinklist.com> and <http://www.backflip.com> . Write keyword specific articles and submit them to the top article directories like <http://www.ezinearticles.com> and <http://www.goarticles.com> . Continue personal promotion of your product (blogs, forums, web 2.0, etc).

Note: Jedi Wealth shows you how to get 1-click submission of your articles to 4,231 article directories.

Day 22

Find bonus material to add to product to create your irresistible offer. Continue personal promotion of your product (blogs, forums, web 2.0, etc).

Day 23

Run a teleseminar with prospects and host to discuss the product and launch, and special discount offer. Continue personal promotion of your product (blogs, forums, web 2.0, etc).

Day 24

Write about your launch on market specific forums like <http://www.warriorforum.com> about your launch and ask for feedback, help. Work on keeping the discussion active each day from here on until 7 days after launch. Continue personal promotion of your product (blogs, forums, web 2.0, etc).

Jedi Wealth will give you access to the top Internet Marketing forums online.

Day 25

Apply some persuasion principles to your prospects – limit the supply, or restrict your offer, or have a special prelaunch discount. Continue personal promotion of your product (blogs, forums, web 2.0, etc).

Day 26

Publish another article with keyword specific links. Develop back end product plan – what to sell after customer buys. Continue personal promotion of your product (blogs, forums, web 2.0, etc).

Not clear on this? JediWealth.com will make it crystal clear.

Day 27

Email your prospects about last 72 hours for discount. Remind partners of last 72 hours before launch. Continue personal promotion of your product (blogs, forums, web 2.0, etc).

Day 28

Publish articles with distribution service. Email your prospects about last 48 hours for discount. Remind partners of last 48 hours before launch. Prepare press release. Test product purchase process and downloads. Continue personal promotion of your product (blogs, forums, web 2.0, etc).

Day 29

Email your prospects about last 24 hours for discount. Remind partners of last 24 hours before launch. Continue personal promotion of your product (blogs, forums, web 2.0, etc).

Day 30

Launch Product. Set final selling price. Continue personal promotion of your product (blogs, forums, web 2.0, etc).

Learn how to do press releases – included in *The Jedi Internet Wealth System*.

Income should be \$10,000/month by now.

Note: Every step listed is easy to do once you know how to do it. If you need help with completing any of the steps, consider [*The Jedi Internet Wealth System*](#) and its inexpensive full training course. Every last detail is covered in high resolution video format.

Day 31 and Beyond

Write and publish articles. Continue personal promotion of your product (blogs, forums, web 2.0, etc). Build your back links, and connect with communities related to your product. Add related products as needed, and continue to develop back end to add additional income streams.

Ongoing Activities
